

SOUMYARANJAN PRADHAN

+91-7683838650 | Bhubaneswar, India | psoumyaranjan166@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Profile Summary

Analytical and detail-driven **Data Analyst** skilled in **Python, SQL, Power BI and Excel** with expertise in **data cleaning, visualisation and performance analysis**. Experienced in transforming complex datasets into **actionable insights** through dashboards and storytelling using **Pandas and NumPy** for data analysis and automation.

Experience

Data Analyst Intern - Talentele Learning, Bhubaneswar

Jun 2025 - Dec 2025

- Performed **data variance analysis** and debugged SQL queries, demonstrating **critical thinking** and **attention to detail** to ensure 95% accuracy in data extraction from MySQL Workbench.
- Applied advanced data cleaning and data **normalization techniques**, showcasing **problem-solving skills** to maintain data integrity and optimize retrieval processes.
- Designed and delivered customizable dashboards using Power BI, leveraging creativity and stakeholder communication to provide actionable insights.

Projects

Financial Analysis Dashboard | MySQL, Power BI | [GitHub Repository](#)

Aug 2025-Oct 2025

- Analysed **25,000+** financial transactions using **YTD, QTD, and MTD** reporting frameworks to identify revenue and profitability trends.
- Developed **15+ advanced DAX** measures for **Gross Profit, Revenue, Net Sales, Profit Margin** and profitability benchmarking.
- Built **10+ interactive Power BI visualizations** enabling product, customer, and regional profitability analysis.

Freight Analysis Dashboard | Power BI, Excel, MySQL | [GitHub Repository](#)

Oct 2025 - Dec 2025

- Analysed **Actual vs Budget** sales costs across **multiple entities and fiscal-year month** using Dax.
- Developed 17+ DAX measures including **Actual Sales & budget, Actual Freight & Budget, Actual Freight%, Budget%, Budget Variance, and Cost-to-Sales Ratio**.
- Designed 8+ dashboards with **matrix, line, and stacked-column visualizations** to monitor weekly & monthly.

Bank Deposits Analysis Dashboard | Excel, Power BI | [GitHub Repository](#)

Dec 2025 – Feb 2026

- Developed a Power BI dashboard analyzing **46,395+** banking records across **25 regions** and **7 products**.
- Automated **weekly deposit and account reporting**, reducing manual reporting effort by **40%**.
- Implemented **dynamic period filtering** to analyze **50+** weeks of deposit and account performance.

Technical skills

Programming Language: Python, MySQL

Libraries: Pandas, NumPy

Platform: Power BI, Tableau, Excel, Jupyter Notebook, Git, GitHub

Analytics: Data Cleaning, EDA

Business Intelligence: Reporting Automation, Data Transformation, Insights generation

Certificates

- **GOOGLE** - Google Data Analytics Professional Certificate - [View Credential](#)
- **NPTEL** - Data Analysis With Python - [View Credential](#)
- **Uniathena** - Basics of Python - [View Credential](#)
